November	569-628
December	629-680

TRANSACTIONS of the ASAE

Issue	*Pages*
Volume 9, No. 1 — General Edition	1-144
Volume 9, No. 2 — Special Edition	145-296
Volume 9, No. 3 — General Edition	297-448
Volume 9, No. 4 — General Edition	449-602
Volume 9, No. 5 — Special Edition	603-748
Volume 9, No. 6 — General Edition	749-900

CONFERENCE PROCEEDINGS

Issue	*Prefix*	*Pages*
Drainage for Efficient Crop Production	DC	1-78
Electromagnetic Radiation in Agriculture	ER	1-70
Management of Farm Animal Wastes	AW	1-162
Standards — A Vital Tool in Engineered Agriculture	ST	1-32

(Page numbers with prefix "T" refer to the TRANSACTIONS of the ASAE — for other prefixes see "Conference Proceedings")

Published by the

AMERICAN SOCIETY OF AGRICULTURAL ENGINEERS

ST. JOSEPH, MICHIGAN 49085

A

Accurate, rapid evaluation of erosion from irrigation furrows ..... T 404
ACI code, The new 200
Action of light in controlling insect growth and development ..... ER 30
Adams, J.
One aspect of tracklayer performance ..... T 6
Advances in automatic proportioning of ingredients 76
Adrian, P. A.
Mechanical properties of peaches, pears, apricots and apples ..... T 135
Adobe bricks, High pressure for strengthening and stabilizing soil-cement ..... T 507
Adkisson, P. L.
Action of light in controlling insect growth and development ..... ER 30
Adaptability of pasture grasses to hydroponic culture and their ability to act as chemical filters, Evaluating AW117
Aeration, Measuring DC6
Aeration to aid rice drying, Use of ..... T 893
Aerobic treatment of swine waste AW58
Aerodynamic characteristics of selected farm grains ..... T 48
Aesthetics, economics-animal waste ..... AW 4
Agnew, R. W.
Cattle-manure treatment techniques AW81
Agricultural engineer and the farm real estate appraiser, The 656
Agricultural engineering: supply vs. demand 432
Agricultural engineers, India challenges ..... T 284
Agricultural engineers in overseas programs, Responsibilities and opportunities for ..... T 279
Agricultural experiment stations in Chile, Developing two 596
Agricultural grain comminution sizing critique and nutritive analysis ..... T 818
Air distribution in perforated ducts, Analog computer solution ..... T 599
Air flow in mow driers by hot-wire anemometer, Measuring ..... T 155
Air-flow patterns by use of models, Ventilation ..... T 646
Air-intake systems, Dynamic characteristics of tractor-engine ..... T 32
Air structures: for agriculture? 212
Airline to measure water level, A portable 86
Air velocity and broiler growth in a diurnally cycled hot environment ..... T 329
Air velocity and heat tolerance of young chickens ..... T 583
Akesson, N. B.
Evaluation of drift residues from aerial applications ..... T 389
Akyurt, M.
Mechanical factors influencing precision planting of sugar beets ..... T 793
Albin, R. C.
Coprophagy and use of animal waste in livestock feeds AW112
Albright, J. L.
Materials handling and labor in free-stall and loose housing ..... AW 43
Aldrich, Robert A.
Multibarrel vault greenhouse roof of glass-fiber reinforced plastic ..... T 17
Alfalfa drying – overcoming natural barriers 476
Alfalfa hay during storage, Spontaneous heating and nutrient retention of baled ..... T 509
Allaire, Royal P.
Microwave heating in freeze-drying ..... T 752
Allen, Paul B.
A comparison of topographic mapping methods ..... T 782
Allred, E. R.
Farm-waste management trends in northern Europe AW133
Alpers, R. J.
Clay draintile and its use DC46
Altman, Landy B. Jr.
Farm wiring in the new NEC code 478
AMERICAN SOCIETY OF AGRICULTURAL ENGINEERS
ASAE address in the congressional record 69
ASAE future facilities and staff needs 89
Publication project receives new funds 91
Where do we grow from here? 150
Publication project receives new funds 156
More support for publications 217
How do we pave the way? 220
ASAE finances 1965 276
ASAE annual meeting board action 471
Forest engineering: a new ASAE committee goes to work 589
ASAE role in standardization of farm equipment ST21
ASAE power and machinery standardization activity ST23
ASAE standards related to electric power and processing ST25
Analog computer solution of air distribution in perforated ducts ..... T 599
Analog techniques and instrumentation for experimental research, Continuous ..... T 661
Analysis of soil as heat source for heat pump system ..... T 846
Analysis of wood trusses with nailed metal-plate joints ..... T 411
Anchorages under gravity and withdrawal loads, Performance of pole ..... T 222
Anderson, Earl D.
Engineering planning for a rebirth of the countryside 15
Engineering planning in agriculture 216
Anderson, J. H.
Vibratory harvesting of cotton-basic investigations ..... T 641
Anderson, John R.
Biological interrelationships between feces and flies AW20
Animal feed grinding and mixing plants 548
Animal manures associated with handling, Physical properties of AW27
Animal waste (aesthetics, economics) ..... AW 4
Animal waste as feed for ruminants, Utilization of AW109
Animal waste in livestock feeds, Coprophagy and use of AW112
Animal waste management ..... AW 7
Animal waste management at the regional level AW148
Animal waste management, National symposium on AW151
Animal-waste management, Problems of cattle feeding in Arizona as related to AW120
Animal waste management symposium 338
Animal waste problem as viewed by civil engineers, Farm ..... AW 9
Animal waste problem, Farm ..... AW 8
Animal waste symposium epilogue AW152
Animal wastes, Biological treatment of AW140
Animal wastes: disposal or management AW144
Animal wastes, Future research in AW150
Animal wastes, Role of renderer in the use and disposal of AW114
Anthony, W. Brady
Utilization of animal waste as feed for ruminants AW109
Application efficiency of sprinkler irrigation and its effects on microclimate ..... T 642
Application of lighting research in agriculture ..... ER 7
Application of similitude to agricultural engineering research ..... T 637
Applied design practices, Some ..... T 221
Are tractors noisy? 532
Arellano, M. T.
Comparative laboratory tests of new drainage conduits ..... T 352
Artificial illumination for plant growth, European research on ER45
Artificial lights for laying hens ..... T 675
Artificial soils simulate natural soils in tillage studies
Part I Frictional properties of artificial soils ..... T 145
Part II Similitude of plane chisels in artificial soils ..... T 147
ASAE address in the congressional record 69
ASAE annual meeting board action 471
ASAE power and machinery standardization activity ..... ST 23
ASAE role in standardization of farm equipment, The ..... ST 21
ASAE standards related to electric power and processing ..... ST 25
Attenuation coefficients of grains and forages, Gamma-ray ..... T 312
Attoe, O. J.
Physical, chemical and bacteriological properties of farm wastes (bovine animals) ..... AW 10
Attracting insects with radiant energy ..... ER 28
Audiofrequency gas plasma, Response of cottonseed to ..... T 872
Auger-feed injector for pneumatic conveyor ..... T 406
Automated feed system 660
Automatic control of swine feeding 84
Automatic feed processing control with electronic weighing ..... T 489
Automatic proportioning of ingredients, Advances in 76
Automatic slurry feeding system for swine, An 24
Axthelm, Deon D.
Making irrigation pay in Nebraska 28
Aziz, M. H. Abdel
Influence of exchangeable ions on the stability of drain banks ..... T 788

B

Baker, D. N.
Microclimate in the field ..... T 77
Bakker-Arkema, F. W.
A deep-bed computational cooling procedure for biological products ..... T 834
Developing a mechanical cabbage harvester ..... T 860
Baler and chopper components, Hay losses from ..... T 277
Ball, H. J.
Effects of exposure to light of different wavelengths on insect growth and development ..... ER 36
Barnett, A. P.
Soil physical properties related to runoff and erosion from artificial rainfall ..... T 123
Barrett, J. R. Jr.
Turf heating with electric cable 526
Barrier stops washouts, Concrete 138
Bartok, J. W. Jr.
A recording air-flow planimeter 487
Basic factors affecting performance of mechanical cottonpickers ..... T 326
Basinger, D. L.
Channel stability in Moccasin Creek watershed ..... T 843
Batchelder, D. G.
Zone tillage machines and methods for cotton ..... T 98
Beach erosion control techniques ..... T 620
Beams and influence of knee braces thereon, Modified continuous ..... T 603
Beams, Strength characteristics of thin, wooden ..... T 227
Becker, Clarence F.
Heating stock water by solar energy 272
Becker, E. R.
Comparative laboratory tests of new drainage conduits ..... T 352
Beeman, James F.
Developing a mechanical celery harvester 376
Beer, C. E.
Evaluating sedimentation prediction techniques in western Iowa ..... T 828
Benedict, R. H.
Warped-surface method of land grading ..... T 64
Bennett, A. H.
Certain heat characteristics of oranges, grapefruit and tangelos during forced-air precooling ..... T 355
Interrelationships of physiological and engineering factors in Long Island potato storages ..... T 594
Bennett, G. K.
Hot water use on dairy farms ..... T 254
Bentley, Orville G.
Animal waste management at the regional level ..... AW 148
Berriman, L. P.
Future challenges for research and development in electrified agriculture ..... T 170
Berry, Edward C.
Requirements for microbial reduction of farm animal wastes ..... AW 56
Best, Albert M.
Forage machinery and livestock production ..... T 612
Bhatnagar, A. P.
Effect of periodic temperature variation on the flexural strength of a structural sandwich ..... T 27
Bhattacharya, A. N.
Value of broiler litter as feed for ruminants ..... AW 105
Bickert, W. G.
Kinetic friction of grains on surfaces ..... T 129
Lasers: theory and application 592
A deep-bed computational cooling procedure for biological products ..... T 834
Biggar, J. W.
Comparison of computed and experimentally measured ion concentrations in soil column effluents ..... T 784
Bigsby, Floyd W.
For combines: controlling feed rates automatically 434
Bilanski, W. K.
Damage resistance of seed grains ..... T 360
Billingsley, R. V.
Electronic computers for least-cost land-forming calculations ..... T 190
Biological interrelationships between feces and flies ..... AW 20
Biological treatment of animal wastes ..... AW 140
Bishop, A. A.
Evaluation of intake rate constants as related to advance of water in surface irrigation ..... T 671
Influence of exchangeable ions on the stability of drain banks ..... T 788
Black, H. M.
Duration of kernel drying in counter-flow grain drying ..... T 690
Black, R. D.
Hydraulics of circular inlet gratings ..... T 14
Blacklight insect traps, Developing an area insect-control project using ..... ER 42
Blacklight traps for control of cabbage loopers ..... ER 34
Blaisdell, F. W.
Computing energy losses at draintile junctions ..... T 445
Blast shelters, Rural 144
Blueberries, Mechanical harvesting of cultivated ..... T 4
Bockhop, C. W.
Gamma-ray attenuation coefficients of grains and forages ..... T 312
Boersma, L.
Vertical unsteady flow to drains described ..... T 880
Bond, T. E.
Sloping floors for beef-cattle feedlots ..... AW 41
Effect on air ions on swine and poultry ..... T 883
Borthwick, H. A.
What light can do to plants ..... ER 67
Bosworth, Douglas L.
Dynamic considerations for flail knives ..... T 777
Bouwer, Herman
Developing design requirements for parallel drains ..... DC 62
Bowen, H. D.
Electrical sensing-zone measurement of particle size ..... T 102
Charging liquid spray by electrostatic induction ..... T 501

Plant mechanics in seedling emergence ..T 650
Measurement of edaphic factors for determining planter specifications ..... T 725
Bowers, Wendell
Scheduling operations in minimum tillage systems ..... T 858
Bowman, C. C.
Measurement of snow-water equivalent from aircraft ..... T 379
Box, T. W.
Coprophagy and use of animal waste in livestock feeds AW112
Boyd, James E.
Electro-osmotic moisture migration in poultry excrement ..... T 626
Boyd, L. L.
Interrelationships of physiological and engineering factors in Long Island potato storages ..... T 594
Boyd, Morton M.
Automatic control of swine feeding 84
Brakensiek, D. L.
Hydrodynamics of overland flow and nonprismatic channels ..... T 119
Brevik, T. J.
Building layout and design for a hog-finishing facility ..... T 173
Bridgham, D. O.
Trickling filters as a dairy-manure stabilization component ..... AW 66
Broberg, D. E.
Flat channel terraces ..... T 571
Broiler growth in a diurnally-cycled hot environment, Air velocity and ..... T 329
Broiler litter as feed for ruminants, Value of AW105
Brooker, D. B.
Aerodynamic characteristics of selected farm grains ..... T 48
Brooks, David R.
Leaching agricultural soils ..... T 826
Brown, C. M. Jr.
Materials handling and labor in free-stall and loose housing ..... AW 43
Brown, G. K.
Determining fruit-bearing zones in citrus ..... T 366
Brown, L. D.
Effect of supplemental light on tomatoes ..... ER 52
Brown, R. H.
Artificial lights for laying hens ..... T 675
Bryant, R. L.
Design of constant-temperature rooms for experimental poultry study ..... T 314
Bubenzer, G. D.
Effect of particle roughness on soil erosion by surface runoff ..... T 562
Buchta, H. G.
Flat channel terraces ..... T 571
Efficiencies and benefits of contour bench leveling for irrigation ..... T 574
Buelow, F. H.
Kinetic friction of grains on surfaces ..... T 129
Response of selected greenhouse plants to infrared heat ..... ER 58
Buie, Eugene C.
Planning small watershed projects 436
Building failures, Lessons from ..... T 252
Building layout and design for a hog-finishing facility ..... T 173
Bulk density of alfalfa hay, Effect of Moisture content, depth of storage, and length of cut on ..... T 428
Bunn, J. M.
Thermal conductivity of burley tobacco during the cure ..... T 36
Digital readout from a multipoint recorder 214
Burford, J. B.
Relation of selected characteristics to hydrologic performance of two small watersheds ..... T 394
Burgener, Maurice L.
Precast and prestressed concrete components for farm structures ..... T 276
Burgy, R. H.
Groundwater tracing by tritiated water injection ..... T 116
Busch, C. D.
A portable airline to measure water level 86
Subsurface irrigation with perforated plastic pipe ..... T 100
Butchbaker, A. F.
Design of constant-temperature rooms for experimental poultry study ..... T 314
Byerly, T. C.
Potentials of electromagnetic radiation in agriculture ..... ER 9
Byers, Gordon L.
Alfalfa drying: overcoming natural barriers 476

C

Cabbage harvester, Development of a mechanical ..... T 862
Cabbage harvester, Developing a mechanical ..... T 860
Cabbage loopers, Backlight for control of ..... ER 34
Cabbage plants as related to mechanical harvesting, Physical properties of ..... T 866
Calderwood, David L.
Use of aeration to aid rice drying ..... T 893
Canham, A. E.
European research on artificial illumination for plant growth ..... ER 45
Cannon, M. D.
New design principle for crop-residue disposal equipment ..... T 198
Cantaloupes, Effects of cultural practices on mechanical harvesting of ..... T 800
Cargill, B. F.
Effect of humidity on total heat and total vapor dissipation of holstein cows ..... T 702
Carson, J. R.
Effects of light on egg production ..... ER 18
Casada, J. H.
Physical properties of burley tobacco as related to harvester design ..... T 678
Cassell, E. A.
Dewatering chicken manures by vacuum filtration ..... AW 85
Casselman, T. W.
Evaluation of electrostatic charging of chemical dusts ..... T 803
Cassidy, J. J.
Aerodynamic characteristics of selected farm grains ..... T 48
Castor Oil: A promising new crop for American farmers 278
Catron, D. V.
Time-lapse cinematography as a method of studying animal behavior and ration preferences ..... ER 22
Cattle feeding in Arizona as related to animal-waste management, Problems of ..AW120
Cattle-manure handling and disposal systems on the west coast ..... AW 45
Cattle-manure treatment techniques ..... AW 81
Celery harvester, Developing a mechanical 376
Certain heat characteristics of oranges, grapefruit and tangelos during forced-air precooling ..... T 355
Cetas, R. C.
Interrelationships of physiological and engineering factors in Long Island potato storages ..... T 594
Challenges for research and development in electrified agriculture, Future ..... T 170
Chancellor, W. J.
Combined hypotheses for anticipating soil strains beneath surface impressions ..... T 887
Change of permeability with time ..... DC 32
Channel stability in Moccasin Creek watershed ..... T 843
Characteristics of selected farm grains, Aerodynamic ..... T 48
Characteristics of single, dual, and low-pressure tires, Draft, power efficiency, and soil-compaction ..... T 41
Characterizer of soil for drainage design, Saturated conductivity as a ..... DC 24
Characterizing soil properties for drainage design ..... DC 21
Charging liquid spray by electrostatic induction ..... T 501
Charity, L. F.
Pressure drop in elbows of a pneumatic conveying system ..... T 29
CHECK POINTS
Gems from the second mile 40
Engineers urged to solve national problems – Interested in consulting work? – Tribute to Texas – Future of ASAE 96
Opportunities for international experience – ASAE foundation speaker established 158
An inward look (at our membership) 238
013 – Obsolescence – Beeman brochure – Challenge from Idaho 286
What's wrong with engineering (a British view) – Summer employment and work experience 344
Thanks, Lee – Movie usage – AAAS participation – Thrashing machine meetings 398
Special word to associate members – – New procedure for electing fellows and honorary members 490
Employment outlook or the case of the elusive employee – NER survey – Tough test – EDP for ASAE 556
What do I get (for ASAE membership)? 624
A salute to the agricultural engineer 668
Chemical dusts, Evaluation of electrostatic charging of ..... T 803
Chemical filters, Evaluating adaptability of pasture grasses to hydroponic culture and their ability to act as AW117
Chemicals can boost production, How agricultural 384
Chen, Cheng-lung
Theory and characteristics of overland flow ..... T 20
Cheney, Lloyd T.
Farm animal waste problem as viewed by civil engineers ..... AW 9
Cherry harvesting, Fundamental factors in mechanical ..... T 681
Chicken manures by vacuum filtration, Dewatering ..... AW 85
Chittenden, D. H.
Determining drying constants for shelled corn ..... T 52
Christiansen, J. E.
Evaluation of intake rate constants as related to advance of water in surface irrigation ..... T 671
Church, Frank
ASAE address in the congressional record 69
Cinematography as a method of studying animal behavior and ration preferences, Time-lapse ..... ER 22
Circular inlet gratings, Hydraulics of ..... T 14
Citrus, Determining fruit-bearing zones in ..T 366
Citrus fruit automatically, Handling 22
Citrus trees, Plastic-covered greenhouses supply controlled atmospheres to ..... T 338
Clay draintile and its use ..... DC 46
Claycomb, R. S.
Multiatmosphere potato storage ..... T 199
Clayton, Joe E.
Vibratory harvesting of cotton-basic investigations ..... T 641
Clayton, J. T.
Effect of periodic temperature variation on the flexural strength of a structural sandwich ..... T 27
Operating characteristics of two aerobic-anaerobic dairy manure treatment systems ..... AW 61
Trickling filters as a dairy-manure stabilization component ..... AW 66
Cleaver, Thayer
Problems in planning and using dairy layouts ..... T 206
Clutch design, Mechanical ..... T 288
Clyde, C. G.
Submerged trapezoidal measuring flumes ..... T 85
Coffee beans, Physical properties of different grades of Arabica ..... T 592
Cohron, G. T.
Model testing of earthmoving equipment ..T 201
Collins, R. V.
ASAE standards related to electric power and processing ..... ST 25
Collins, W. H.
Modified continuous beams and influence of knee braces thereon ..... T 603
Color vision in mammals ..... ER 12
Column formula for design of wooden posts and studs, A more efficient ..... T 816
Combine-shoe performance, Effect of front-rear slope on ..... T 1
Combined hypotheses for anticipating soil strains beneath surface impressions ..... T 887
Combines: controlling feed rates automatically, For 434
Combines, Developing a hydrostatic drive for self-propelled 70
Comminution sizing critique and nutritive analysis, Agricultural grain ..... T 818
Commons, G. G.
Channel stability in Moccasin Creek watershed ..... T 843
Compaction in unsaturated soil, Triaxial measurements of shear strain and ..... T 460
Company standardization program—its manufacturing and marketing value, A ..... ST 7
Comparative laboratory tests of new drainage conduits ..... T 352
Comparison of computed and experimentally measured ion concentrations in soil column effluents ..... T 784
Comparison of soil shear values obtained with devices of different geometrical shapes ..... T 896
Comparison of topographic mapping methods, A ..... T 782
Composite action in corrugated-steel, transversely-stiffened panels ..... T 71
Composting of poultry manure, On-site ..AW 68
Comprehensive watershed planning 266
Computer, Irrigation flows and the electronic 136
Computer solution of air distribution in perforated ducts, Analog ..... T 599
Computer solutions for the drainage of sloping land ..... T 546
Computer tackles some drainage problems, The 78
Computers cut design time, How 648
Computers for least-cost, land-forming calculations, Electronic ..... T 190
Computing energy losses at draintile junctions ..... T 445
Concrete barrier stops washouts 138
Concrete components for farm structures, Precast and prestressed ..... T 276
Concrete pipe drains ..... DC 49
Concrete rigid frames for farm buildings, New reinforced ..... T 233
Concrete-stave silo durability ..... T 162
Conditioning, handling and storing seed cotton prior to ginning ..... T 180
Conduits, Comparative laboratory tests of new drainage ..... T 352
Constant-temperature rooms for experimental poultry study, Design of ..... T 314
Continuous analog techniques and instrumentation for experimental research ..T 661
Contour bench leveling for irrigation, Efficiencies and benefits of ..... T 574
Controlled atmosphere generators for fresh fruit and produce storage ..... T 449
Controlled atmospheres to citrus trees, Plastic-covered greenhouses supply ..... T 338
Controlling insect growth and development, Action of light in ..... ER 30
Conveying system, Pressure drop in elbows of a pneumatic ..... T 29
Cook, J. S.
Factors influencing forced fumigation ..T 736

Cooke, J. R.
Electrical sensing-zone measurement of particle size ..... T 102
Coolers for on-the-farm egg storage, Energy use by refrigerative ..... T 216
Cooley, C. E.
Treatment of duck wastes and their effects on water quality ..... AW 98
Cooling procedure for biological products, A deep-bed computational ..... T 834
Cooper, A. W.
Soil Dynamics: A new challenge for the agricultural engineer 481
Coprophagy and use of animal waste in livestock feeds AW112
Corley, T. E.
Basic factors affecting performance of mechanical cottonpickers ..... T 326
Corn costs more to buy, Why damaged shelled 326
Corn, cotton, fertilizer, irrigation demonstrations ..... T 685
Corn, Determining drying constants for shelled ..... T 52
Corn kernels and their relation to cracking during drying, Thermal expansion and tensile properties of ..... T 556
Cornish, G. K.
Pressure drop in elbows of a pneumatic conveying system ..... T 29
Corpuz, I. T.
Nitrogen fertilization of crops to compensate for yield losses from poor drainage ..... DC 17
Correlation of two methods of testing feed pellets ..... T 587
Corrugated-steel, transversely-stiffened panels, Composite action in ..... T 71
Cost analysis of foam-spray drying of whole milk ..... T 771
Costel, Gerald L.
Heating stock water by solar energy ..... T 272
Cotter, D. J.
Effect of supplemental light on tomatoes ..... ER 52
Cotton-basic investigations, Vibratory harvesting of ..... T 641
Cotton, Effects of fiber orientation on electrical conductivity of a mass of ..... T 386
Cotton harvester, The flexible-roll 139
Cotton in Arkansas, New concept of stripper harvesting of ..... T 306
Cotton prior to ginning, Conditioning, handling and storing seed ..... T 180
Cotton quality, Ginning processes and their effects on ..... T 282
Cotton, Stripper harvesting vs. spindle picking of open-boll and experimental stripper varieties of ..... T 110
Cotton, Zone tillage machines and methods for ..... T 98
Cottonpickers, Basic factors affecting performance of mechanical ..... T 326
Cottonseed, Relation of soil temperature prior to planting to emergence of ..... T 203
Cottonseed to audiofrequency gas plasma, Response of ..... T 872
Counterflow steady state, Wheat drying rates at ..... T 690
Coutts, H. H.
Evaluation of drift residues from aerial applications ..... T 389
Cox, E. H.
Design of pier foundations for lateral loads ..... T 417
Cox, Maurice B.
Water intake and runoff rates of two small watersheds in relation to cropping treatment ..... T 340
Water-intake and runoff rates in relation to cropping treatment ..... T 596
Cramer, R. D.
Solar radiation control for small exposed houses ..... T 194
Crimson clover, Effect of varying cylinder speed and clearance on threshing cylinders in ..... T 499
Crop drying, Weather data as pertaining to ..... T 261
Crop-residue disposal equipment, New design principle for ..... T 198
Cropping treatment, Water intake and runoff rates of two small watersheds in relation to ..... T 340
Cropsey, Myron G.
Analysis of soil as heat source for heat pump system ..... T 846
Cross, Otis E.
Removal of moisture from poultry waste by electro-osmosis (Part I) ..... AW 91
Electro-osmotic moisture migration in poultry excrement ..... T 626
Crouch, C. L.
Effect of light on the human organism ... ER 2
Crow, F. R.
Runoff from impervious surfaces under conditions of simulated rainfall ..... T 343
Curl, S. E.
Coprophagy and use of animal waste in livestock feeds AW112
Curley, R. G.
Lateral pressures of wafers in storage ... T 143
Feeding wafered hay 378
Curriculum for food engineering 131
Curry, H. A.
Errors resulting from mean rainfall estimates on small watersheds ..... T 126
Curry, R. Bruce
Scandium as a tracer of movement of clay suspensions in columns of porous media ..... T 88
Curtis, David R.
Design criteria for anaerobic lagoons for swine manure disposal ..... AW 75
Curtis, J. O.
Self-anchored , continuously insulated concrete wall panels ..... T 534
Cutter-cleaner-loader type of sugar-cane harvester ..... T 458
Cylinder speed and clearance on threshing cylinders in combining crimson clover, Effect of varying ..... T 499
Cypress Creek drainage formula, Evaluating and applying the ..... T 550

D

Dairy cattle, Microclimate modification for hot-weather stress relief of ..... T 309
Dairy design, Use of mathematical models in ..... T 210
Dairy layouts, Problems in planning and using ..... T 206
Dairy-manure stabilization component, Trickling filters as a ..... AW 66
Dairy manure treatment systems, Operating characteristics of two aerobic-anaerobic ..... AW 61
Dale, A. C.
Theoretical analysis of edgelay thermopile sensitivity ..... T 175
Analysis of wood trusses with nailed metal-plate joints ..... T 411
Materials handling and labor in free-stall and loose housing ..... AW 43
Damage resistance of seed grains ..... T 360
Daniel, W. H.
Turf heating with electric cable 526
Daum, Donald R.
An electronic continuous-flow silage meter 332
Davidson, J.
Removal of moisture from poultry waste by electro-osmosis (part 2) ..... AW 93
Davis, E. H.
Cattle-manure handling and disposal systems on the west coast ..... AW 45
Davis, John R.
Measuring water distribution from sprinklers ..... T 94
Davis, R. E.
Effect of electric lighting on drylot-feeding behavior of cattle ..... ER 16
Davis, R. V.
Treatment of duck wastes and their effects on water quality ..... AW 98
Davis, Sterling
Determining evapotranspiration from a 1,000-acre lysimeter ..... T 108
Watershed lysimeter study of salt balance using Colorado River water to irrigate residual soils ..... T 528
Low-cost plastic pipe for new sprinkler irrigation systems in California citrus .. T 824
Day, C. L.
Effect of moisture content, depth of storage, and length of cut on bulk density of alfalfa hay ..... T 428
Day, D. L.
Aerobic treatment of swine waste ..... AW 58
Day length and reproductive efficiency of cattle ..... ER 20
Decimalized inch, Probe metric system vs. 323

Thomson, Kimbrell A.
Automatic control of swine feeding 84
Tietjen, Cord
Plant response to manure nutrients and processing of organic wastes AW136
Tillage in seedbed preparation, Shallow strip ..... T 465
Tillage machines and methods for cotton zone ..... T 98
Tilt-up rigid timber frames ..... T 139
Timber frames, Tilt-up rigid ..... T 139
Time-lapse cinematography as a method of studying animal behavior and ration preferences ..... ER 22
Tires, draft, power efficiency, and soil compaction characteristics of single, dual and low-pressure ..... T 41
To control heat stress in plants 325
To measure small change in water vapor .. 600
To measure trickle outflow 484
Tobacco as related to harvester design, Physical properties of burley ..... T 678
Tobacco during curing, Mechanisms for controlling drying rate of ..... T 474
Tobacco during the cure, Thermal conductivity of burley ..... T 36
Tobacco hornworms and budworms with blacklight traps in large-area tests, Population suppression of ..... ER 39
Todd, E. W.
ASAE power and machinery standardization activity ..... ST 23
Tool for strip tilling and planting row crops, A ..... T 151
Topographic mapping methods, A comparison of ..... T 782
Totten, David S.
Energy and particle path analysis: forage blower and vertical pipe ..... T 629
Tovey, Rhys
Measurement of intake rate for sprinkler irrigation design ..... T 359
Accurate, rapid evaluation of erosion from irrigation furrows ..... T 404
Townsend, J. S.
Milking machine research techniques ... T 364
Tracklayer performance, One aspect of ... T 4
Traction in a submerged sand soil ..... T 464
Traction system, Role of displacement in a simple ..... T 10
Tractive performance of a lugged tire operating on sand, A microscopic study of ..... T 513
Tractor accidents, Man-machine relationship in ..... T 178
Tractor-engine air-intake systems, Dynamic characteristics of ..... T 32
Tractor engine exhaust for pumping agricultural fluids ..... T 265
Tractor transmission forces, Field measurement of ..... T 707
Tractors, Determining drawbar-performance characteristics of new ..... T 225
Tractors, Performance of fifty farm ..... T 268
Transducer, A groundwater pressure 386
Transient-flow drainage system, Simplified procedure for ..... T 61
Transmission forces, Field measurement of tractor ..... T 707
Trapezoidal flumes, Water measurement in small irrigation channels using ..... T 382
Trapezoidal measuring flumes, Submerged ..... T 85
Traywick, J. D.
India challenges agricultural engineers .. T 284
Treatment of duck wastes and their effects on water quality ..... AW 98
Trends and construction techniques for land grading in Arkansas ..... T 578
Trends and costs of land grading for irrigation in California ..... T 565
Triaxial measurements of shear strain and compaction in unsaturated soil ..... T 460
Trickling filters as a dairy-manure stabilization component ..... AW 66
Tritiated water injection, Groundwater tracing by ..... T 116
Tupper, Gordon R.
Stripper harvesting vs. spindle picking of open-boll and experimental stripper varieties of cotton ..... T 110
New concept of stripper harvesting of cotton in Arkansas ..... T 306
Turf heating with electric cable 526
Turner, A. K.
Runoff from impervious surfaces under conditions of simulated rainfall ..... T 343
Turner, C. N.
Hot water use on dairy farms ..... T 254
